Please excuse me for writing this in a simple and straightforward manner. This is serious. I am typing this despite being under extreme surveillance. I'm not even sure if this email can reach you securely.

I have suffered 3.5 years of persecution facilitated by the host countries, namely, Lithuania and the UK.

Please read [https://github.com/Al-Migrant/mass-madness/blob/main/Help me find out what crimes they have been committing.md](https://github.com/Al-Migrant/mass-madness/blob/main/Help%20me%20find%20out%20what%20crimes%20they%20have%20been%20committing.md)

I know it might not be a matter that directly concerns you, but I can only try to ask for help to expose this madness. Help me find out what other crimes my persecutors have been committing and expose them where you can, please.

Please don't tell me to seek help from the local authorities, such as the police. They are part of the persecutor group.

Thank you.

It may sound extreme but I don't use my information anymore.

I am providing them just for you to investigate the matter.

My name was Chun Mo Chu and my date of birth is 28 Dec 1984.

My application for asylum in Lithuania should be dated at the end of April 2022.

My application for asylum in the UK should be dated in February 2024.
