Please just tell your authorities, and from them to foreign persecutors, that I am sick of their games in which they treat me as an animal, an object they own, a human subject that they try all kinds of sick things on, including but not limited to permanent health damage, drugging, molestation, assault, false allegation, theft.

Please also tell them to give me back my belongings they taken by theft.

Thank you

We need to do an assessment with you but I need to work out the best way to do this with you given the speech and language difficulty.

If you give me your full name, date of birth, and nationality then I can let you into our centre. Then I will email you about coming to an appointment with one of our support workers to complete an assessment. I just need to figure out the best way to do this.

Kind regards,

THIS EMAIL IS FROM AN EXTERNAL SOURCE

There won't be a problem if it's for legitimate reasons, but through the years of persecution I have been meeting with request like this and thing never went well even I tried to trust. And it repeated countless times over the years of persecution by foreign persecutors and the authorities of the place where my application for was accepted (not yet approved).

I would like to ask.

What are you planning to suggest after more or less read about my situation?

I have just replied to kishan.vekaria@passage.org.uk.

Meanwhile, may I get inside and sit down to rest, and maybe use other things if you allow.

First, I have been under surveillance since years ago, this email is also monitored for certain.

I won't be surprised if the authorities contact you if they haven't already. I hope you can read my record on github.com/c-cm/cnp and via the link there before trusting their narrative. And let people know about such madness if possible. They have people stalk me everywhere and have the control over my networks and devices. I am unable to reach people effectively.

Below is what I wrote when I talked to another organisation.

It doesn't include the reply from them but I think it can still give you an idea about my situation.

Hello, I can only read.

So I need to type to communicate anyway.

May I have your email so that we can communicate via email directly?

Excuse me. I can only read. I don't know what you answered.

It's quite a long story.

You can read about part of background on my online diary if you want to on github.com/c-cm/cnp and the link there.

I am not sure if you will believe. The local authorities are helping foreign persecutors to treat me like an animal. I am not using these words lightly. For example, preventing me from receiving mails, both physical and digital. Using their influence to have people everywhere treat me abnormally, not necessarily always horrible but still abnormal. I won't be too surprised if they have some kind of narrative for that.

About 2 months ago, I came out to the area nearby trying to get people aware of my situation. But then my belongings were stolen and they refuse to give me back till today.

They sent people to offer various things but none was willing to address the core problems.

1. The authorities are helping foreign persecutors.

2. I need my belongings back.

What I am typing on my device or send via the Internet are monitored. So I am typing under their surveillance.

I won't be too surprise if they are going to contact you if they haven't already.

Most of my things.

Asylum seeker ID (not illegal migrant, other ID is taken when applied for asylum), keys to a supposed asylum accommodation, money I saved up since more than 1 year ago when I started receiving asylum support. I couldn't buy anything safely because the aforementioned problems.

There is something I want to ask for if nothing else could be done. But I would like to ask you what you think about the situation and what your suggestion is.

It's close to 100% that the solicitors will side with them. In fact, I left the last country I sought asylum in because I realised that they faked even the legal process.

Then I would like to ask about something else. I want to make it clear that I would not ask for that if they didn't steal my belongings.

Along need a laptop to keep my life more or less going. I don't know how to end this situation, but I need it for both study and recreation.

I read online that there are refurbished device for the poor.

Do you know where I could apply for one?

You can call me Fraser.

I hope that you know that I am talking frankly. E.g.: I don't hide that I will also use the device for recreation purpose. And I am typing all these knowing that the authorities and foreign persecutors will see.

I would like to take a photo of your responses.

I really don't think finding a solicitor will help. Any idea about how I can more or less have my life going? This has been years already.

Really nothing other than finding a solicitor?
