Hello

Thank you for your E Mail to Marylebone Library. We can only generate the Terms and conditions you signed for when we set up an application for a new card. The one I gave you apparently is the same as the one on the application form.

Please note we CANNOT offer new devices.. We only offer the Sim Cards. You will need your own device. Where did you hear that The National Database will supply you with a Device?

You don't often get email from perscamden@gmail.com. [Learn why this is important](#)

Hello, I am sending again because I haven't received a reply yet.

I am the person whose belongings had been stolen by the authorities and foreign persecutors, and received a free SIM after enquiring about free data and devices 3 weeks ago. May I receive a copy of the document (privacy policy?) that was checked on the form as agreed during the process, please.

I forgot to edit some places after copy and paste and forgot to mention something. Here is the edited full letter.

Hello. I am the one who can only read and ask for your email address for earlier communication.

I am not sure if you remember that my belongings were stolen which I mentioned when I applied for a library card weeks ago.

I would like to make it clear first that:

1. if I haven't lost my belongings, I won't have to make the following enquiries or requests. (Nor would I be living homeless.)
2. I need only to borrow the devices unless the authorities refuse to let me get my property back forever. When my belongings are returned to me, I can return the borrowed devices.

What I need:

1. My sim card's plan will end next month. I read on the window that it seems free data can be acquired here.
2. I am a heavy digital device user, and my devices are stolen. The remaining phone doesn't always work properly and it's getting worse. It seems that it is also possible to apply for devices here. I would like to confirm this and see if I am eligible.

Circumstances (simplified, as the whole story is very long):

I am an asylum seeker but my current situation is basically like being homeless (actually worse, I dare say).

Again, I used to take care of my own needs with available resources. I actually had multiple devices. I bought them in hope of getting rid of the persecutors because I knew my old devices were not secure. I failed to get rid of the persecutors but ended up with multiple devices.

But now only a faulty phone is left. My belongings were stolen, which I dare say the authorities are involved. I hoped that they would return them in days initially but it has been 1.5 months and they still refuse to let me get them back. Migrant help isn't responding either.

The above is why I am living homeless and need to get support here and there. I used to live on the asylum allowance, whatever crazy things (serious health damage, drugging, molestation and many more) I was enduring every day.
