I can only read.

If the authorities and foreign persecutors are going to give me back my belongings there. I will be able to type better on my laptop.

Good morning,

I am in King's cross and was hoping to talk to you.

Please let me know if you are around.

Kind regards,

Ana-Elena Anghel

Subject: Re: What will you do?

To repeat something I mentioned when you talked to me on the street this morning. I am living on the street because my belongings are stolen by the persecutor group which include foreign persecutors and local authorities, and more.

I was an asylum seeker (not an illegal migrant) and was living on asylum support and at a supposed asylum accommodation. There were other problems but let's leave it for now.

If you are to help, the first thing I need would be the return of my belongings.

It's completely absurd and unacceptable. Without the return of my belongings I think it can be said that I don't enjoy the basic human rights.

They are also essentially taking from me day by day. Killing me subtly with power abuse and silence.

I will wait for your reply then.

Like I said, the emails will be monitored by the foreign persecutors and the authorities, if you are not with the authorities.

After our initial conversation, you should know that this involve foreign persecutors and local authorities. What will you do?

Please reply to this before leaving.
