Just a while after I hesitated if I should raise an issue on the portal on the Migrant Help website last night, I found a new notification that said something was resolved but there was no information about it. At the same time, selecting a type when raising an issue became impossible and thus raising an issue there also became impossible.

I previously raised an issue for assistance because I suffered a theft and lost most of my property and was stuck in the area where the incident happened. I noticed that a new ASPEN card seemed to be being arranged. There was no other notification.

I hoped the issue could be resolved here but it has been a month and thing hasn't change for the better. In fact, I increasingly feel being forced to accept being treated like an animal. I have to explicitly type things like this because I realise humanity seems to have failed. It's extremely hard to get people realise how serious another human being is suffering, feeling violated almost every day, not limited to once per day, for years.

I remain stuck around the area where my property was stolen and surviving on food from charities. I would like to ask for assistance to receive the new ASPEN card.

I would also like to learn about the issue 251012-553776 last night, which appeared about the same time raising an issue became impossible. Where did it come from, what it was about, who raised it, how was it resolved, etc.

If my information is needed, you can find the information in the previous emails on this thread.

Good afternoon,

May I ask if the previous problem has completely been resolved?

I would like to ask for help in registering/logging in the account for the card on prepaidfinancialservices.com again.

Please do remember that I can only read when replying.

Good Morning

May I ask what MACP is?

The card did work yesterday after I operated as the activation instruction describes with the 6-digit number you gave me, but it seems to be blocked after incorrect PIN attempts, possibly my

fault. It probably needs to be unblocked and a PIN reset/retrieval.

Please note that although I was able to activate it yesterday, I will not be able to get the PIN from the hotline with the loss of verbal capacities.

So, please help with unblocking it, getting the PIN and registering/logging in the account for the card on prepaidfinancialservices.com

Thank you

Good morning,

We have escalated the issue to Home office yesterday as they have 2 different dates of birth for you one for the PFS file and another on the Ellis.

We got this reply from them this morning.

I have checked SU's details on MACP and tried to update their DOB to reflect Atlas, but unfortunately it has error "*Account Review Status*".

I will add a note to the account explaining I'd tried and failed to update to correct DOB.

I have asked a colleague and they advised you contact PFS explaining the exceptional circumstances with SU.

Really sorry for the frustrations caused for you, please wait until they sort this issue and get back to you.

Regarding the enquiry entries, you are saying #240423-003480 was marked "Solved" when Migrant Help allocated and sent the card to me? But who added it? Migrant help added the notes and posted the card to you but the details are added by home office.

May I ask for an elaboration of the technical error about #240613-004582? - the postcode for the new address was not adding and not accepting on the file that was the reason it took your previous address on the file

Good morning

Thanks for the reply. I tried again with the 6-digit number yesterday and the card worked. But it seems blocked now after incorrect PIN attempts. Please help with that and provide guidance on logging-in or registering on prepaidfinancialservices.com.

Many thanks for your kind reply and confirmation for the details for us to check your file.

We can see as of in your ASPEN file the Date of birth as entered as 01/01/2000.

So please activate your ASPEN card using 01/01/00 as the 6-digit number to use the card. Meanwhile we will escape this to home office to sort out your DOB right on the ASPEN file.

This could have caused difficult for you to use your ASPEN.

1. In regards with the #240423-003480 – when we allocate the card to the clients our system, we will mark them to solved. Then the card gets posted to the service user. Its up to home office to pair the card with the right details on the system not migrant help.
2. 240613-004582 – sorry it was a technical error.

Sorry for any inconvenience cause.

Hope this helps with your ASPEN query.

Subject: Issue shows "Solved" with no response and further enquires disappear

Good morning

I contacted Migrant Help via Raise an Issue last week for assistance with getting my ASPEN card to work, but the response stopped at some point and the further enquiry logs keep disappearing.

The reason I contacted was that I have lost my verbal capacities, both speaking and listening, and cannot get my ASPEN card to work. I would like to get assistance until the issue is resolved.

And then I also enquired about a related entry reference #240423-003480. I wanted to know what that entry is, with details.

It was at that point the response stopped with the entry showing "Solved" and the further enquiry entries disappeared. And the address of the latest visible entry, as all those after disappeared, reference #240613-004582 changed from my current accommodation to my previous accommodation.

Please respond and provide further assistance via email as I am not capable of verbal communication. I am afraid Webchat is not an option as I mentioned in my enquiries that I felt like talking to the persecutors on Webchat, when no communication history was left on those entries, no transcript was sent to me, even the issue of not receiving transcripts remains unresolved till this day. So, please respond and provide further assistance via email.

Thank you.
